Subject: SMALL BUSINESS PILOT PROJECT (SBPP) UPDATE FOR AUGUST 2003

BACKGROUND

The purpose of this pilot project is to test whether specific changes in ETP contracting processes and procedures can increase the number of small employers participating in ETP training who would otherwise not complete the ETP contracting process.

Participation would be limited to those small employers that:

- Employ 100 or fewer employees.
- Need less than 40 hours of training but at least 8 hours of training thus eliminating the need for the full and lengthy development of a curriculum.
- Total training costs does not exceed \$25,000.
- Are willing to participate in a modified contracting system that:
 - Simplifies (by combining) the eligibility and application process reducing the field office processing time to 5 days or less;
 - Allows for a shorter training agreement reducing processing, after approved, to as little as 1 day.
- Agree to a modified two-payment schedule that allows for an expedited (5-10 day) invoicing process.
- Can complete training within a 1 to 2 month period as opposed to as much as a two-year period.

SBPP CONTRACTS FOR PANEL CONSIDERATION

In your panel packet this month you will find five new contracts and one amendment developed under the SBPP. If approved by the Panel, these new projects will bring the total number of contracts to 67 for the 11 months of project development to date.

All five projects are from the manufacturing sector. The projects are located in San Diego County (2), San Francisco (1), Sonoma (1) and Los Angeles (1) counties.

These five companies range in size from a total of 5 to 48 employees. The average ETP contract amount is \$10,764. Training hours range from a low 8 to a high of 39 hours. Wages paid to trainees range from \$11.18 to \$62.50 per hour. Two of the employers (Mini Micro Stencil, Inc. and Digital Engraving, Inc.) have requested to use \$.87 and \$1.45 per hour respectively, in health and dental benefits to meet ETP's minimum hourly wage for San Diego and San Francisco counties.

The total ETP training costs for the five projects is \$53,820 for this month. The smallest contract is \$3,900 and the largest contract is \$18,740. The in-kind contributions total \$114,168 (this represents a 53 percent employer contribution toward worker training).

In addition, our small business development staff is currently working with 15 SBPP applications in active development to bring forward for your approval during the September and October meetings.

The table below shows (should the Panel approve the projects before you) a total of 67 SBPP contracts have been developed, totaling \$735,300 in funds committed to the Small Business Pilot Project since October 24, 2002.

SBPP Panel Approval	Number of Contracts	Dollar Amount Approved	Approved Amendments Dollar Amount	Totals
October 2002 to July 2003	62	\$669,580	\$1,900	\$671,480
August 21, 2003 Panel Meeting	5	\$53,820	\$10,000	\$63,820*

* Pending Panel approval at the August 21, 2003 Panel Meeting

SMALL BUSINESS PILOT PROJECT EVALUATION

The Interagency Agreement with the Ohrenschall Center for Entrepreneurship, College of Business at California State University, San Francisco to perform the SBPP evaluation has been executed. Data collection for the SBPP evaluation began in April and May and the first focus group meeting for SBPP employers was held at the ETP North Hollywood office on August 6, 2003. A series of interviews were held with Panel members and ETP staff. Additionally, a sampling of individual trainees is in the process of being contacted in order to obtain feedback on the training received under the SBPP.
